

The Lunight Ritual

A gentle guide to living with your light.

*There is no perfect way to feel.
Only your own rhythm.*

Begin with Today's Light

Start with a gentle shake.

Every morning, gently shake your Lunight.

*Your Daily Light isn't there to predict your day—
it's an invitation to notice how you're feeling
before the world asks anything of you.*

Wear today's light with you.

*The first ritual of every day is simply checking in
with yourself.*

A woman with long brown hair is resting her head on her hand, looking down. She is wearing a white, ruffled dress and a bracelet with a glowing square pendant. The background is a blurred outdoor setting with plants and a building.

Carry Your Light

*A quiet reminder
throughout your day.*

*Whether you're working, traveling,
reading, or simply taking a break, your
Lunight stays close.*

*Sometimes all it takes is one glance at
your wrist to remember to slow down.*

Small moments create lasting rituals.

Ask the Moon

When you're looking for clarity.

*Sometimes you don't need an answer.
You need a different perspective.
Open Ask the Moon in the Lunight App.*

*Share what's on your mind and receive a gentle reflection
inspired by the timeless spirit of the Book of Answers.*

Not fortune telling. Just space to reflect.

Explore Your Birth Chart

Understand yourself a little more.

*Your birth chart isn't meant to define you.
It's another way to explore who you are.*

*Enter your birth date, time and
location to discover your Moon,
Rising, and celestial profile.*

*Every chart tells a different story.
The stars don't decide your future—they help you
understand your journey.*

Keep Your Journey

Every feeling deserves a place to stay.

Use the Lunight App to:

- * Log your mood*
- * Save your Daily Lights*
- * Write small reflections*
- * Look back on your emotional journey*

Over time, tiny moments become meaningful memories.

Live with the Moon.

The moon changes every night.

*So do we. Lunight isn't here to change your emotions.
It's here to help you notice them.
Keep listening to yourself.*
